DETAILED ACTION

The finality of the last office action has been vacated. A new office action on the merits appears below.

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over
 Takamatsu (4,036,524) in view of Bolewski (DES. 365,958). Takamatsu discloses the
 use of a seat (10) including a seat portion (11) and an attached seat back portion (12); a
 top (19), having a lower end, fitted over the seat back portion and a uniform bottom (17),
 having a rearward end, fitted over the seat portion; an engagement assembly (21a)
 carried by one of the lower end of the uniform top and the rearward end of the uniform
 bottom; a complemental engagement assembly (21b) carried by the other of the lower
 end of the uniform top and the rearward end of the uniform bottom; and the engagement
 assembly detachably engaged to the complemental engagement assembly detachably
 engaging the lower end of the uniform top to the rearward end of the uniform bottom,
 see figures 1-2. Takamatsu shows the use of all the teachings of the claimed invention
 but fails to show the use of a top and bottom supporting uniform adornment that

Application/Control Number: 10/647,992

Art Unit: 3636

identifies a member of an organization. Bolewski teaches the use of a top and bottom supporting a uniform adornment that identifies a member of an organization, see figure 1. It would have been obvious to one of ordinary skill in the art at the time of invention to modify the uniform top and bottom with adornment as taught by Bolewski, in order to support and show team spirit to the organization.

Claims 3-5 rejected under 35 U.S.C. 103(a) as being unpatentable over

Takamatsu as applied to claim 1 above, and further in view of Estes (4,694,511).

Takamatsu shows the use of all the claimed invention but fails to show the use of and arm openings on either side the neck openings. It would have been obvious to one of ordinary skill in the art at the time of invention to modify the apparatus with arm openings as taught by Estes, in order for the occupant to wear the top.

Response to Arguments

3. Applicant's arguments with respect to claims and 3-5 have been considered but are most in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erika Garrett whose telephone number is 571-272-6859. The examiner can normally be reached on Monday-Thursday 8:00a.m. -6:00p.m..

Application/Control Number: 10/647,992 Page 4

Art Unit: 3636

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Pete Cuomo can be reached on 571-272-6856. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
